Item: **2022 Sidewalk Replacement Project - City Manager's Recommendation**

No. **5.1**

SUMMARY OF REQUESTED ACTION:

Attached is the City Manager's recommendation to construct the 2022 Sidewalk Replacement Project. The project this year includes the area between Franklin to Chestnut Streets, along with alleys, complaints and curb repairs. Attached is the Engineer's Estimate. The total estimate for the project is \$172,754.50. The City's share is estimated at \$100,132.50. This amount is included in the 2022 budget for the City's share.

This sidewalk was inspected last spring and the property owners were notified that they could do the work themselves or hire a contractor to do the sidewalk replacement prior to October 31, 2021. This project consists of those sidewalks that were not replaced. The City's share is for alleys, curb and gutter, city property, etc.

If Council concurs, a motion to approve the attached resolution would be in order.
