*No.*   **4.1**

## SUMMARY OF REQUESTED ACTION:

The City Council received a presentation from City staff regarding the Community Center – Public Safety Building Project at the City Council meeting on May 16, 2022. A motion was passed to proceed with the East Recreation Center location, continue discussions with the St. Stan's parish, continue to research State of Minnesota Bond Funding, and to bring back a recommendation for public input.

Staff is recommending the following public input regarding the Community Center – Public Safety Building Project:

1. Set a public hearing for July 5<sup>th</sup> to gather public input on the Community Center – Public Safety Building Project.
2. Direct staff to establish an on-line public input form prior to June 17, 2022.
3. Direct staff to establish future public input sessions via City Council action, including focus areas of input, as the plan progresses.

If Council concurs, a motion to set a public hearing for July 5, 2022, and direct staff to establish an on-line public input form prior to June 17, 2022, and conduct future public input sessions, would be in order.

**Department Approval:**

**City Manager Approval:**
